## Welcome to the conference service of ICAMEMS\_2022

**Name:** First International Conference on Advances in Mechanical Engineering & Material Science (ICAMEMS-2022)

**Description:**

ICAMEMS-2022 aims to create an international conglomeration of scientists, engineers, and industrial experts. This forum serves as a platform where people can share information about diverse technological advancements, innovations, and achievements in the areas of Mechanical engineering and Material Science. Further, it would also facilitate discussion that centers on the developments and challenges in the field of machine design, manufacturing, thermal and fluid engineering.

The focus of this conference is to provide a technical platform that encourages scientific research and educational activities that would cater to the needs of both society and the industry. Most importantly, ICAMEMS-22 is invested in the advancement of a common man's life by utilizing the theory and practice of Mechanical Engineering and Material Science. The conference includes a keynote address and guest lectures by eminent speakers around the globe who would deliberate the recent trends and challenges in the field of mechanical engineering.
